

# Sonya® Aloe Deep Moisturizing Cream

Sonya® Aloe Deep Moisturizing Cream with Pine Bark Extract quenches your skin's thirst for moisture like never before!

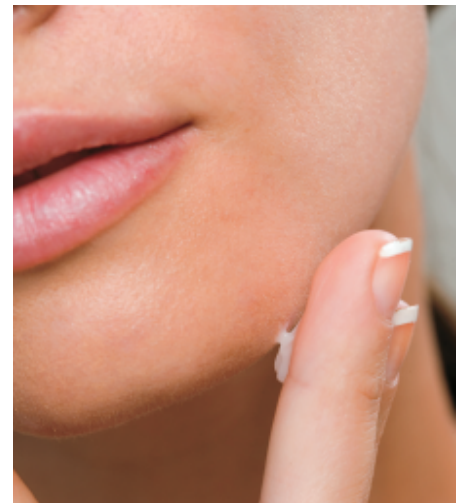

Pine Bark Extract contains natural substances called OPCs (Oligomeric Proanthocyanidins) which have some of the strongest antioxidant properties ever found in nature. As a result, Pine Bark Extract combats free radicals to help preserve and strengthen the skin's collagen, which is the most abundant protein in the body. Combating free radicals is considered by scientists to be one of the best ways to counteract the signs of aging. Pine Bark Extract in combination with the pure, stabilized aloe vera, ceramides, and latest-generation moisturizers in our Sonya® Aloe Deep Moisturizing Cream, helps maintain and deliver moisture deep within the outer layers of the skin to restore and preserve the skin's youthful glow.

**INGREDIENTS:** Aloe Barbadensis Leaf Juice, Aqua, Butylene Glycol, C12-15 Alkyl Benzoate, Macadamia Integrifolia Seed Oil, Propanediol, Glycerol Stearate, Lauryl Lactate, Dimethicone, Helianthus Annuus (Sunflower) Seed Oil, Cetyl Alcohol, Sorbitol, Isostearyl Hydroxystearate, Methyl Gluceth-20, Arginine, Pinus Strobus Bark Extract, Ceramide I, Ceramide 3, Ceramide 6 II, Palmitoyl Tripeptide-5, Sodium Hyaluronate, Phytosphingosine, Cholesterol, Carbomer, PEG-100 Stearate, Sodium Lauroyl Lactylate, Glycerin, Tocopherol, Ascorbic Acid, Citric Acid, Parfum, Benzyl Benzoate, Hexyl Cinnamal, Coumarin, Linalool, Chlorphenesin, Phenoxyethanol, Potassium Sorbate, Sodium Benzoate.
